

# MASH TUNDRA

## BALTIC PORTER

The combination of rich, bready Munich malts and roasty, chocolate and carafa malts is delicious and satisfying on its own, but when it's cold-fermented with a crisp, clean lager yeast is when the Baltic Porter really stands out. We were inspired to brew this beer for the 2021 Lager and Friends beer festival, but its future as a seasonal offering is guaranteed.
